COMPANY PROFILE

The client is one of the Fortune500 companies that provides consulting in internal audit and risk & compliance.

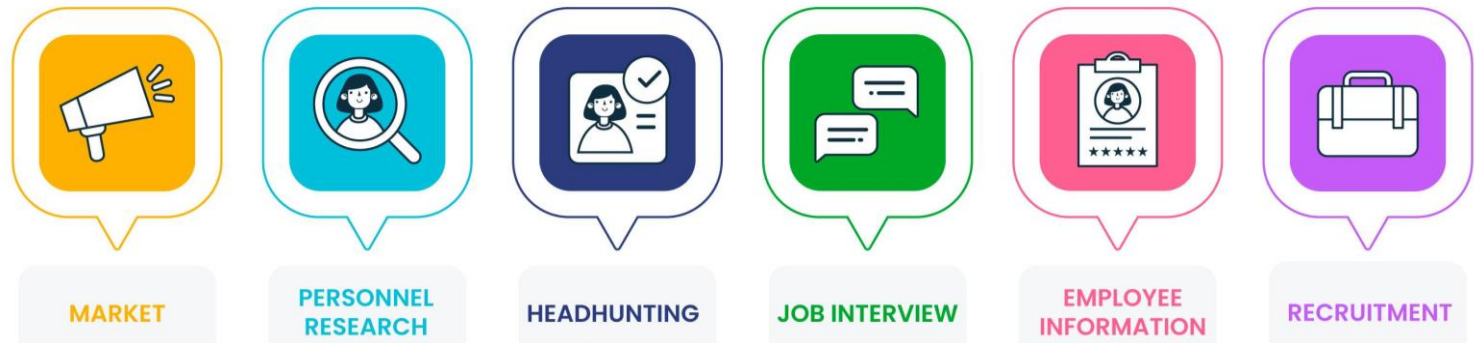

CHALLENGE

The client is seeking to recruit bright and passionate individuals (Cyber Security - Senior Consultants). They approached AMBC Recruitment Center of Excellence to meet the cybersecurity skills gap by investing in hands-on experience and job-placement support.

STRATEGY

- Analyse the client requirements
- Understand the company's culture, time sensitivity, & budget
- Strategize the hiring plan

SOLUTION

- Our team of recruiting experts discussed with the client team to understand the complete requirement of the position, the company's culture, time, and budget.
- Based on the requirement, we created a hiring strategy to fill the position at the right time.
- Our team performed thorough remote screenings via phone, FaceTime/Skype, technical and HR interviews.
- Based on the performance, we shortlisted the candidates who could meet the client's expectations such as skills, knowledge, adaptability, budget, and long-term retention.
- We provided a consolidated report along with the resume, video interview clips, technical test results, Psychometric test report, social media report, and reference check.
- Most importantly, our team has supported the complete onboarding process

BENEFITS

- The solution enabled the client to fulfill open positions with suitable resources. AMBC's recruitment process resulted in an improved speed-of-hire for the clients and the resources.
- AMBC provided a consolidated report which helps the client to understand the candidate.
